To Whom it May Concern:

We are very frequent USPS users, and depend on the postal service for our blood pressure and cholesterol prescription deliveries as well as many online orders we make that are delivered by USPS. We are **appalled** that there is a chance that your postmaster might implement a 10 year plan that will cut service, delay mail delivery, lay off postal workers and shut down post offices, among other things. The public needs and deserves top-notch postal service, especially in this time of pandemic and for mail-in voting. We know that this move by Postmaster DeJoy is political and designed to help future candidates of his choice who feel they do not benefit from higher voter participation. We are talking to everyone we know about this issue and hope that you will consider the needs and feelings of the public the USPS tries so hard to serve to the best of their ability. Thanks for your understanding.

Sincerely yours,

Marcy and Yaakov Taitz
